Summary

Summary

Highly skilled frontend developer with expertise in React, React Native, and a background in translation.

Fluent in French and English, with experience in translating technical documentation and applications.

Passionate about building accessible digital experiences and ensuring seamless communication in multilingual

environments. Currently expanding my skills to backend development to become a well-rounded full-stack developer.

Career Goals

Career Goals

To build a career as a full-stack developer, blending my frontend expertise with newly acquired backend skills

to create comprehensive, user-centric web applications. My goal is to leverage my multilingual abilities and

technical skills to contribute to innovative projects that bridge communication gaps in global digital platforms.
