PROFILE

Highly skilled frontend developer with a strong foundation in web technologies and a unique background in translation. Fluent in both French and English, with extensive experience in translating technical documentation, websites, and applications. Adept at creating responsive, user-friendly web interfaces and ensuring seamless communication between developers and end-users in multilingual environments. Passionate about leveraging my dual expertise to build accessible and inclusive digital experiences.

Experienced Frontend Developer intern with a background in Conference Interpreting. Proficient in HTML5, CSS3, JavaScript (ES6+), React.js, Vue.js, Angular, CSS, Tailwind CSS, Bootstrap, and Git. Seeking a position as a Junior Frontend Developer to continue developing and expanding my skills in a dynamic and collaborative work environment.

EXPERIENCE

06/2024 – 08/2024
Douala, Cameroon

Frontend Developer (Intern)
Corextreme

- **Pusham App Development:** Collaborated with a team to develop the *Pusham* app, designed to provide real-time updates to users of the Cameroonian electricity grid regarding potential blackouts. The app aimed to minimize disruption by allowing users to plan ahead, ensuring they were not caught off-guard by power outages.
- **Key Contributions:** Worked on the frontend development, focusing on creating a user-friendly interface and ensuring cross-browser compatibility. Implemented features that allowed users to receive notifications and updates in real time.
- **FarmConnect GH App Development:** Partnered with a backend developer to build FarmConnect GH, an app designed to bridge the gap between agricultural production and consumption in Ghana. The platform enabled farmers to connect directly with consumers, allowing them to sell fresh produce straight from the farm gate.
- **Key Contributions:** Developed a responsive and intuitive frontend interface that simplified the process for farmers and consumers to register, browse products, and complete transactions.
- **Responsive Portfolio App:** Participated in a team project to create a responsive portfolio application. This project involved working with modern frontend technologies to build a showcase platform for developers and designers, highlighting their work and skills in a visually appealing and accessible manner.
- **Key Contributions:** Focused on responsive design, ensuring the application was fully functional across various devices and screen sizes. Collaborated with designers to implement a clean and user-friendly UI.
- **Personal Portfolio Development:** Built and deployed a personal portfolio website

EXPERIENCE

to showcase my skills, projects, and experience in frontend development. The portfolio features a clean, modern design and is optimized for both desktop and mobile viewing.

- **Key Contributions:** Implemented a smooth user interface, integrated social media links, and utilized responsive design principles to ensure accessibility across all devices.
